

Martin Komp

Orthopaedist and traumatologist, specialized in the treatment of spine diseases. He currently is the Associate Head of the Center for Spine Surgery and Pain Therapy at the Center for Orthopaedics and Traumatology of the St. Elisabeth Group – Catholic Hospitals Rhein-Ruhr – at the three locations St. Anna Hospital Herne, Marien Hospital Herne University Hospital of the Ruhr University Bochum, and Marien Hospital Witten, Germany.

The range of the work at every location involves the complete spectrum of conservative, interventional, and operative measures in the therapy of diseases, trauma, and pain syndromes of the spine in children and adults. A special focus represents his development of full-endoscopic techniques at the cervical, thoracic, and lumbar spine.
