

Rueben Soh

Dr Soh is an orthopaedic surgeon who is passionate about spine surgery. Following his Orthopaedic Surgery training, he completed a year of clinical fellowship in Advanced Spine Surgery in Queens Medical Centre, Nottingham University Hospital, UK, one of the largest spine surgery units in Europe. He has trained under prominent adult and paediatric deformity experts such as Dr Michael Grevitt and Dr Bronek Boszczyk. He is a recipient of the 2010 Ministry of Health Training Scholarship and was the inaugural recipient of the Asia Pacific Orthopaedic Association Paediatric Travelling Fellow 2011. He has been involved in teaching at the undergraduate and postgraduate level since 2008, being awarded the NUS Dean's award for teaching excellence in 2011. He remains actively involved in coaching family medicine and orthopaedic residents as part of his postgraduate teaching commitments. Dr Soh's interests are in adult and paediatric deformities of the spine, complex reconstruction in tumour and infection and minimally invasive spine surgery.
