

Lechosław F. Ciupik,

Ph.D., CEO of LfC

An expert in medical bioengineering. Graduated in Zielona Góra, received Ph. D. in Wrocław. During 25 years of working as academic teacher he gained knowledge in the field of experiments and implementation, as well as teaching and research.

With the beginning of economic transition in Poland (1989) he founded LfC company in Zielona Góra, specialised in supporting of surgical treatment of a spine in the field of “spondyloimplantology”. Then he changed LfC’s profile from design and production into innovative activity focused on its own R&D, IP and commercialization.

Dr L. Ciupik is an author and co-author of over 200 publications. Inventor and co-inventor of over 200 patents and patent applications all over the world. He is a member of few professional and scientific organisations, among others: EuroSpine, Polish Society of Spinal Surgery – Honorary Member, Society of Study and Spine Treatment, etc. Reviewer of European Spine Journal.

Creator of LfC’s motto: “If we do... we do it better” (1992) and new trends: “Measuring up to nature” (2010), “Bridging of the spine” (2011). The last trend is connected with use of 3D-printing for creating the “3D-Truss-Ti implants” for fusion stabilization and its scientific explanation.
