## NSpine Winter Masterclass

18 -20 January 2027

---

Waldhotel  
Arosa | Switzerland

## The NSpine Arosa Winter Masterclass - an exceptional event

Our special “Masterclass” is now established as the premier international case discussion forum; renowned not only for the discussion of complex cases, but importantly for the engagement and the friendly atmosphere of the debates. The meeting attracts senior clinicians and opinion leaders who enjoy exchanging ideas and discussing challenging clinical scenarios.

Each Masterclass combines 12 hours of CME accredited sessions with dedicated free time for informal networking or business meetings. Maximum of 30 participants per Masterclass!

Many of our participants return each year confirming the event as their most valuable professional learning experience.

Included in your package is the course fee, hotel accommodation and breakfast, as well as networking dinners at the Waldhotel's in-house restaurants.

Nestled in the heart of the Swiss Alps, the Waldhotel Arosa offers a serene and inspiring setting for focused discussion and collaboration during the NSpine sessions. With its well-appointed facilities and welcoming atmosphere, it provides the ideal environment for small group meetings, networking, and the cultivation of meaningful business relationships. Arosa continues to be a place where ideas take shape and partnerships begin.

**Bronek Boszczyk,**  
Spine Surgeon | NSpine Founder

# What to expect as sponsor

The NSpine Winter Masterclass is presented as case-based learning, which is delivered in a very personal, learner-centric environment.

As the name Masterclass suggests, our attendees are all competent and proficient in the subject matter. They attend the Masterclass to learn from Experts the key tips & tricks to manage complex and rare cases; essentially, gaining wisdom that otherwise may take years to acquire.

At an NSpine event, our sponsors are not treated as “banks”, you are truly welcomed as equal delegates and encouraged to share your knowledge and opinions during the sessions.

Industry partners add real value to the sessions, lending different knowledge and experiences especially when it comes to implant and instrumentation discussions

Critically, the NSpine Masterclass gives you time and access to the attending surgeons and faculty. You participate in the sessions, engage with delegates and faculty, arrange meetings during the free time and naturally join in the aperitif and informal dinners. Each session importantly provides your personnel with exceptional learning and networking opportunities.

NSpine covers all dinner cost for faculty and attendees - sponsors are not expected to fund dinner or drinks

While there is no “exhibit-area” per se (you have no exhibit area expenses), we recommend you bring relevant samples of implants and instrumentation for demonstration – you’ll have ample time to discuss, demo and receive feedback on your ideas.

Furthermore, you will be provided with an opportunity (dependent on your package) to give a company / product presentation (15 mins) to the entire group. Alternatively, you can invite your selected attendees to a lunch roundtable outside the course program with no extra fees to NSpine.

Past sponsors have emphasised that, besides the excellent learning experience, they highly value the meeting for the unparalleled opportunity to establish new contacts with senior surgeons and KOLs.

# Programme

## Format

- Case based interactive discussions.
- The complexity is at expert level and covers unusual cases, technical challenges, custom solutions and complications - typically around 30 cases are covered per day
- The Masterclass includes 4 theory sessions (total of 12 hours) and 1 in person workshop on paraskiing and related rehabilitative techniques

## Schedule

| 18-01-27                | 19-01-27                                 | 20-01-27                  |
|-------------------------|------------------------------------------|---------------------------|
| 16:15 to 19:30          | 07:30 - 09:30<br>-----<br>15:00 to 19:30 | 08:15 - 11:30 am          |
| Emergencies & Urgencies | Reconstructive Challenges                | Revisions & Complications |

## Pricing & Availability

- Spaces limited to 30 spots
- Please visit our Registration page for pricing and categories [here](#)

## Accreditation

- To date every Masterclass has been awarded CME credits.
- 2027 CME accreditation will again be applied for

## Content

- **Trauma / Tumour / Deformity / Min Invas Degenerative Challenges** are the primary focus. These entities are grouped into Emergencies & Urgencies / Reconstructive Challenges / Revisions & Complications for respective sessions
- Discussions and cases can however expand into any area of interest especially complex subspecialty cases

## Paraskiing and winter sports in disability

As the location of the demonstrations and tutorials is dependent upon weather and alpine conditions the exact timing and location will be defined closer to the date of the event.

Appropriate winter clothing is required for this specialised outdoor tutorial.

# Faculty

# Venue

Arosa is located at the end of the picturesque Schanfigg Valley at an altitude of around 1800 metres above sea level, surrounded by a striking panorama of mountain peaks.

The Waldhotel Arosa offers a peaceful retreat with modern meeting facilities and excellent dining options on-site, making it an ideal setting for a case-based masterclass.

## Getting there

Although Arosa is nestled deep in the Swiss Alps, it can be reached by car and rail from all over Europe. Zurich airport is only a short journey away for international travel.

**By air** Zurich airport provides the best flight access. Car transfer from Zurich airport to Arosa takes about 2 ½ hours with several professional providers available online. Alternatively take the train from the airport or Zurich Main Station to Chur and then on to Arosa.

**By train** the leisurely journey from Chur to Arosa climbs 1,000 metres in just 26 kilometres. Feel like you're floating on air as you pass over the elegant Langwieser Viaduct. Travel time from Zurich to Arosa by train is about three hours. The hotel shuttle will pick you up at the station.

**By car** take the A3 to Chur and follow the signs to Arosa. Approximately 45 minutes and 361 curves later, you will reach your destination. Winter tires are essential and snow chains or four-wheel drive may be required in the event of heavy snow. Driving experience in winter conditions is useful.

Alternatively leave your car in the multi-storey car park in Chur (Park & Ride, next to the train station, approx. CHF 10/day) and take the train to Arosa.

**For the adventurous**

Helicopter transfer to Arosa is available from Zurich airport as well as from Chur.

# Testimonials

Great meeting, great cases, great participants and fun atmosphere.

★★★★★

- UFUK AYDINLI -

This is the meeting I learn most at!

★★★★★

- CIARAN BOLGER -

The course was absolutely fantastic with participants of highest calibre. I honestly enjoyed every single moment - both professionally and socially!

★★★★★

- MARCEL IVANOV -

The NSpine course conducted at Arosa was an unique 'one-of-a-kind' event. The selection of the venue, the city and the faculty were beyond expectations.

★★★★★

- RISHI KANNA -

A thoroughly enjoyable meeting, with great discussions, comfortable venue and very well organised. I learnt a lot.

★★★★★

- DAVID CHOI -

Thank you very much for this super meeting and having me in the faculty. I have enjoyed the discussions and I've learned a lot. Congratulation for the excellent organization.

★★★★★

- DEZSŐ JESZENSZKY -

Once again a great event. I had the opportunity to learn relevant new strategies.

★★★★★

- CLAUDIA LAMARTINA -

The NSpine meeting in Arosa was excellent yet again. I learn something new everytime. We had outstanding faculty and very valuable discussions.

★★★★★

- AREENA DSOUZA -

Best meeting I've ever been on. Congratulations and thank you to all the faculty, delegates and industry for their hard work and contribution.

★★★★★

- DARREN F. LUI -

Formal CME evaluation and feedback consistently indicates substantial educational value

Great meeting, excellent case range and complexity.

★★★★★

- JEREMY REYNOLDS -

Contact us for the booking form or  
further information

We look forward to welcoming you to  
Arosa!

The background of the entire page is a photograph of a snowy mountain landscape. In the lower-left foreground, a yellow snow cannon is visible, emitting a spray of snow. The middle ground shows rolling snow-covered hills. In the background, there are dark, jagged mountain peaks. The sky is a deep blue, and a bright sun is positioned in the upper-right quadrant, creating a starburst effect with rays of light. A small, thin white streak, possibly a comet or a fast-moving object, is visible in the sky near the sun. The overall scene is bright and clear, suggesting a sunny day in a winter sports area.
